

Open House Demonstration

From 27th ~ 30th April 2010, an Open House Demonstration took place at Media-Go office in Kwun Tong, Hong Kong.

A large range of applications like all-in-one desktop based telepresence full high definition, multimedia recording & live-broadcasting hardware solution, infrastructure backbone for high definition distribution, virtual reality effect embodied by 3D projection were shown to the audience.

Guests from the financial, educational and governmental sector enjoyed as well as consultants or dealers of the System Integration Market the four day lasting event.

Thanks to the outstanding support of all suppliers and the large number of guests, the Open House Demonstration at Media-Go was a full success.
